Open Data In Action

Thursday, October 26, 11:00am-2:00pm
Hartford Public Library, Atrium
500 Main Street, Hartford, CT

Open Data In Action brings together a wide range of researchers to showcase how their work has benefited from openly and freely accessible data. Presenters from the public, private, and academic sectors will discuss how open data, ranging from historical documents to statistical analyses, is being used to create projects, change policies, or conduct research and highlight the importance open data has on shaping the world around us.

Opening Remarks:

Tyler Kleykamp, Chief Data Officer,
State of Connecticut

Presenters:

Rachel Leventhal-Weiner, CT Data
Collaborative, CT Data Academy

Jennifer Snow, UConn Library,
Puerto Rico Citizenship Archives:
Government Documents as Open Data

Tina Panik, Avon Public Library, World War II
